

Stock Control and Materials Systems

Module Code N52821

Purpose This module is a statement of the standards to be achieved to gain a FETAC credit in Stock Control and Materials Systems at Level 5.

General Aims Learners who successfully complete this module will:

- ✓ develop an understanding of how information is processed within an organisation and acquire the skills necessary to perform routine duties.
- ✓ develop the skills to create and query a database
- ✓ understand the policies, procedures and systems for recording and controlling stock and materials

The specific learning outcomes are grouped into 3 units.

Unit 1 Information Processing

Unit 2 Introduction to Data Processing and Database

Unit 3 Material and Stock Control

Assessment All assessment is carried out in accordance with FETAC regulations. Assessment is devised by the internal assessor, with external moderation by FETAC.

Summary Project 50%
